TrawellTag Cover-More aids delegate with medical emergency in Bangkok

The thrill of meeting a loved one, who lives miles away, is always one to look forward to. This becomes extra special when parents visit their children residing abroad. Smart parents, like Ashok Soni, take a suitable travel assistance & insurance cover when they make such trips, as they understand the costs & risks involved with any emergency in a foreign land.

Soni was visiting his son in Bangkok, when he experienced sudden uneasiness and complained of chest pain. Ankush, Soni's son, immediately contacted the emergency assistance team of TrawellTag Cover-More who arranged for the hospitalization of Soni in Bangkok. Post examination, the medical team advised Soni to undergo angiography

and immediate surgery to place an artificial pace-maker.

The TrawellTag Cover-More global assistance team swiftly supported Mr. Soni's family by liaising with the hospital to provide regular updates on Mr. Soni's health. They also mediated with the underwriter and facilitated end-to-end financial assistance and co-ordination with the hospital.

On being discharged from the hospital, Mr. Soni decided to stay on with his son in Bangkok, with a sense of gratitude for travelling with TrawellTag Cover-More's global assistance and insurance. The expert assistance team at TrawellTag Cover-More consistently endeavours to protect every

traveller at all times.

The emergency assistance team at TrawellTag Cover-More swung into action immediately and their unwavering support put my father into the path of recovery.

-Ankush Soni, son of Ashok Soni, TrawellTag Cover-More Happy Customer
