# YOU MUST GET TRAVEL INSURANCE BEFORE VISITING LOVED ONES ABROAD

The thrill of meeting a loved one who lives miles away is always a special occasion that everybody looks forward to. This becomes extra special when parents visit their children residing abroad. Smart parents, like Ashok Soni, take a suitable travel assistance and insurance cover when they make such trips, as they understand the costs and risks involved in any unforeseen emergency in a foreign land.

Soni was visiting his son in Bangkok, when he experienced sudden uneasiness and complained of chest pain. Soni's son, Ankush Soni immediately contacted the emergency assistance team of TrawellTag Cover-More, who arranged for the hospitalization of Senior Soni in Bangkok. Post examination, the medical team advised Soni to undergo angiography and immediate surgery to place an artificial pacemaker.

The TrawellTag Cover-More global assistance team swiftly supported Soni's family by liaising with the hospital to provide regular updates on Soni's health. They also mediated with the underwriter and facilitated end-to-end financial assistance and co-ordination with the hospital.

On being discharged from the hospital, Soni decided to stay on with his son in Bangkok, with a sense of gratitude for travelling with TrawellTag Cover-More's global assistance and insurance.
